Sri Lanka

## ABOUT ME

I am currently pursuing a BSc (Hons) in Software Engineering, with a completed Higher Diploma in Computing and Software Engineering from ICBT Campus, in partnership with Cardiff Metropolitan University. I have gained strong foundational knowledge in software development, system design, and project management. Through academic and group projects, I have developed practical experience in designing and building user-friendly applications and working collaboratively in team environments. I am passionate about creating efficient and innovative software solutions and continuously improving my technical and professional skills. I am seeking an opportunity in the IT industry where I can apply my knowledge, contribute to real-world projects, and grow as a software engineering professional.

## EDUCATION

2025  
ICBT JAFFNA

**BSC (HONS) IN SOFTWARE ENGINEERING**  
BSc (Hons) in Software Engineering (Ongoing)

2024-2025  
ICBT JAFFNA

**HIGHER DIPLOMA IN COMPUTING & SOFTWARE ENGINEERING**  
Higher Diploma in Computing and Software Engineering – Completed

January 2011 -August  
2019  
Jaffna Vembadi Girls'  
High School

G.C.E Advanced Level completed (2019)  
G.C.E Ordinary Level completed (2016)

## TECHNICAL SKILLS

---

Languages: Java, C++, C#, HTML, CSS, JavaScript, R Script, PHP

Technologies/Frameworks: React.js, Node.js, Express.js, ASP. NET frame work

Database: MySQL , MongoDB , SQLite

Operating System: Windows

Development Methodologies: SDLC

Developer Tools: GitHub, VS Code, Android Studio, CodeBlocks, Apache NetBeans, Visual Studio, WAMP, Cisco paket tracer, MS project, VMware, Postman, R Studio

## SOFT SKILLS

---

Problem-solving

Leadership

Teamwork

## LANGUAGES

---

English (Professional proficiency)

Tamil (Native)

## PROJECTS

---

### UPCOUNTRY WARRIORS - PLAYER & TEAM MANAGEMENT

Developed a C++ desktop app to automate player and team records for a baseball club.

Implemented player registration , manage and error handling.

Technology Stack: C++, File I/O, Console UI

### THE PAWS SHOP - PET SUPPLY MANAGEMENT SYSTEM

Developed an object-oriented Java application to manage pet supply inventory. Implemented OOP concepts with file-based data storage for viewing, adding, and searching products.

Technology Stack: Java, OOP, File I/O

### FIT ZONE FITNESS CENTER - GYM WEB APPLICATION

Developed a Gym Web Application for managing registrations, schedules, and training using HTML, CSS, JavaScript, PHP, and MySQL. Implemented user authentication and data management for a seamless experience.

Technology Stack: HTML, CSS, JavaScript, PHP, MySQL

## **LUXEVISTA RESORT - MOBILE APPLICATION**

Developed a mobile application for a luxury resort to manage room bookings, service reservations, and guest profiles using Android Studio and Java. Integrated features for exclusive offers, local attractions, and booking notifications.

Technology Stack: Java, Android Studio, SQLite

## **HIRE N FIX - Implementation of Web Application For Troubleshooting Service & Repair Demonstration To Home Appliance**

Developed a full-stack web application with Admin, User, and Technician dashboards to manage appliances, repairs, and technician hiring. Implemented user authentication, CRUD operations, repair guides, notifications, enquiry forms, and feedback management.

Technology Stack: React, Node.js, Express.js, MongoDB

## **REFERENCE**
